PROFESSIONAL PROFILE

Social media and content strategist with four years running organic short-form for subscription and lifestyle creator accounts. I plan content systems from research to brief to publication, test hooks and formats on engagement and retention data, and lead a team of 8–12 creators. My workflow is AI-first: Claude for research and scripts, Higgsfield and ComfyUI for video, plus a publishing tool I built in Cursor. ~1M organic views in one month; 0 to 5k followers in about a month on one account.

WORK EXPERIENCE

Co-founder · Content & Organic Growth

2022–2026

Digital Content Innovations LLC · Remote · subscription and lifestyle creator accounts

- **Short-form reach:** ~1M organic views in one month across up to 3 accounts; grew a lifestyle creator account from 0 to 5k followers in about a month
- **Content systems:** took ideas from concept to brief to TikTok/Reels publication; hired, onboarded and briefed a team of 8–12 creators
- **Hook and format testing:** wrote hypotheses, tested hook and format variants, then scaled winners and cut losers by hook type using engagement and retention data
- **Strategy and positioning:** built channel plans, brand positioning and tone of voice for the agency's accounts
- **Research:** ongoing competitor and trend research, turned into tailored content ideas
- **Retention:** designed retention loops and CRM touchpoints to keep audiences engaged beyond first contact
- **Paid support:** ran Meta/TikTok campaigns at $5–8k/month, ROAS 2.5–4.0x, using creative data to guide organic formats

English Teacher (part-time)

2021–2022

SkyEng · Online

- 1:1 online English lessons for private learners

PROJECTS

Postroom: AI captions & Instagram publishing

Built in Cursor · used in production

- AI caption variants, scheduling and publishing through the Instagram API; cut posting time by ~75%

ZOLA brow product ad (spec campaign)

Self-initiated spec work · in portfolio

- Wrote the angle, the "Brows with attitude?" hook and the script for a 15s vertical ad, produced it with AI video tools
