PROFESSIONAL SUMMARY

Creative strategist with four years of experience co-running a content and paid-social business for direct-to-consumer lifestyle subscriptions. I engineer high-converting angles and hooks, brief creators effectively, and rely on high-velocity creative testing across Meta and TikTok to guide rapid iterations. My workflow is strictly AI-first: Claude for scripting, Higgsfield and ComfyUI for video generation, and custom automation via Cursor. Seeking a remote role where rapid hypothesis testing and high-efficiency ad scaling drive revenue and brand growth.

WORK EXPERIENCE

Co-founder, Creative & Performance Marketing

2022 – 2026

Digital Content Innovations LLC | Remote

- **High-Velocity Testing & Efficiency:** Managed lean, highly profitable Meta/TikTok budgets while maintaining a 2.5–4.0x ROAS. Used rapid, aggressive creative testing to offset volume, tracking CPA/ROAS by creative to scale winners and cut losing ads quickly.
- **Hook Optimization:** Cut Meta CPA from ~$48 to ~$22 (≈54% reduction) in 6 weeks by pivoting hooks from lifestyle scenes to direct product demonstrations.
- **Briefs & Production:** Managed the entire creative pipeline from initial concept and UGC brief to final TikTok/Reels publication. Hired, onboarded and directed a remote team of 8–12 creators.
- **Custom Automation (Postroom):** Built an internal publishing tool in Cursor with automated caption generation, scheduling and direct publishing via the Instagram API, cutting posting time by ~75%.
- **Growth & Analytics:** Conducted acquisition-funnel drop-off analysis for a dating app. Drove ~1M organic short-form views in a single month across 3 accounts, scaling one account from 0 to 5k followers in four weeks.

English Teacher

2021 – 2022

SkyEng | Online

- Conducted 1:1 online lessons for private learners, tailoring the curriculum to each learner's goals.

KEY PROJECTS

ZOLA Brow Product Ad (Spec Campaign) — In portfolio

Wrote the strategic angle and scripted the "Brows with attitude?" hook for a 15-second vertical ad. Produced the asset entirely with AI video tools and delivered it alongside a testing roadmap for future hook and format iterations.

Postroom — AI Captions & Instagram Publishing — Built in Cursor · used in production

AI caption variants, scheduling and publishing through the Instagram API; removed the manual posting shift from the team's week and cut posting time by ~75%.
