Creative strategist with four years co-running a content and paid-social business for subscription and creator-led brands. I decode what makes top-performing ads convert, then build the creative systems to scale them: written hypotheses, hook-level testing on Meta and TikTok, AI-first production, and tools that remove the manual work in between.

EXPERIENCE

Co-founder · Creative & performance marketing — Digital Content Innovations LLC, remote
2022 – 2026

- **Paid social.** Owned budget, creative and testing on Meta and TikTok for subscription and creator-led brands: $40K+ a month in paid spend across eight accounts (~41K active subscribers), at ~$1.15 per new subscriber and 2.5–4.0× ROAS. Every test started with a written hypothesis; 8–10 new creatives a week, cut or scaled by hook type.
- **Hook optimisation.** Six-week A/B test in Meta Ads Manager, same audiences and budgets, ad sets split by hook type: CPA per paid subscription checkout fell ~54% (~$48 → ~$22) once budget moved to product-demo openers; ROAS held.
- **Subscription growth.** Co-founded and ran the revenue side of a subscription business: pricing, the post-purchase lifecycle and CRM funnel, and retention. $471K gross (Oct 2024 – Nov 2026), 86% of it after sign-up through lifecycle and CRM; 0% chargebacks; flagship account in the platform's top 2%.
- **Team and pipeline.** Hired, onboarded and directed a remote team of 8–12; ran the creative pipeline from concept and UGC brief to TikTok/Reels publication across several accounts at once.
- **Postroom.** Built an internal publishing tool in Cursor and Claude Code — brief → AI caption options → approval → scheduling → direct Instagram API publishing — used in production, cutting end-to-end posting time by ~75%.
- **Organic.** ~1M organic short-form views in a month across three accounts; took one creator-led account from 0 to 5k followers in about four weeks through niche positioning and format iteration.

SELECTED WORK · HOOK LAB

- **ARGŌ golden body oil** — 10 s spec ad built around a macro texture-reveal hook; brief, four-beat storyboard and test plan. Nano Banana, Veo, ffmpeg, Claude; no shoot.
- **ZOLA Brow Soap Mini** — 15 s product ad with a question hook (“Brows with attitude?”), animated graphics and a synthesized soundtrack; delivered with a hook-testing roadmap.
- **L-Theanine drink, SOLÈNE fragrance, Outfit transition** — before/after scene switch, sensory reveal and trend-format transition hooks, produced in Higgsfield and ComfyUI.
